DETAILED ACTION

1. This Office Action is in response to the reply dated 02/05/2009.

Response to Appeal Brief filed

2. The Examiner thanks applicants for the reply in the form of an Appeal Brief dated 02/05/2009. The Office has reviewed the Application in light of the prior art of record and the main pint of contention included in the Appeal brief, namely, the teaching of the two perspectives displayed and connected with a line (tangible link) which represent a view of a user's activity (see pages 9 and 110 of the reply brief dated 02/05/2009.

Objection to the drawings

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because in the drawing submitted on 03/14/2001 fig. 3 is labeled twice and that fig. 2 is mentioned in par. 0044 and other places in the specification while there is no fig. 2 labeled in the drawing sheets. Furthermore, the drawing sheets appear fuzzy and handwritten labels are partially legible. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

4. In addition to Replacement Sheets containing the corrected drawing figure(s), applicant is required to submit a marked-up copy of each Replacement Sheet including annotations indicating the changes made to the previous version. The marked-up copy must be clearly labeled as "Annotated Sheets" and must be presented in the amendment or remarks section that explains the change(s) to the drawings. See 37 CFR 1.121(d)(1). Failure to timely submit the proposed drawing and marked-up copy will result in the abandonment of the application.

Allowable subject matter

5. Claims 1, 3-6, 820, 22, and 23 contained allowable subject matter and would be allowed upon correction of the drawings sheets and any other existing informality associated with the application.

6. Note that the drawing sheets correction is just exemplary. Applicant is advised too review the entire application for errors and correct the same in an attempt to place this application in proper condition for allowance.

7. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
